WELCOME TO STONE LIGHTING

For more than half a century, we at Stone Lighting have built our business by focusing on mutual respect, high quality products, and exceptional customer service.

The Stone Family is steeped in lighting tradition that began for our family with our patriarch, Jack R. Stone, 75 years ago. The tradition continued with his son, Ron Stone, and his formation of LBL Lighting in 1971. Adam and Andy Stone quickly acquired their father's enthusiasm for lighting and were integral in both sales and design at LBL Lighting. Since its inception, the company grew into one of the most respected and successful decorative lighting companies which culminated in its acquisition by Generation Brands in 2005.

In 2010, we formed Stone Lighting, LLC. We are proud to build our business on trusting friendships between our family, co-workers and valued customers. The positive net effect of these relationships has led to the highest quality products and exceptional customer service. We work with European artisans to create unique organic designs from raw elements, Venetian glass and the finest cut crystal. We pride ourselves in our superior metal plating, finishing and brass turning.

Our newest publication of Catalog 45 is filled with innovative and inspirational lighting creations. Our ability to combine unique decorative elements from the world over embodies our passion for the industry we love. Currently, we are a recognized leader in the lighting industry and a premier lighting resource for hospitality design, high-end and multi-unit residential, national account and commercial decorative markets. If your lighting vision is not within our 500 page publication, please inquire with our office or your local rep. We are highly qualified to customize or modify to satisfy your specific desires.

Please enjoy our biggest and best expression, to date, of what Stone Lighting has to offer.

Our customers are of the highest priority and the reason we come to work each and every day.

Sincerely,
The Stone Family

EZ jack canopies.

Gracie

Pristine leaded crystal glass spheres. Offered in three finishes: cognac, perfectly clear crystal and also with frosted interior lamp compartment.

Unfrosted spheres throw an impressive clarity and glow, while frosted version softly diffuses lamp holder and lamp image while still offering a beautifully clear crystal sphere.

Dimmable with ELV dimmer.

Cluster 7 Canopy

Cluster 7

Cluster 7 is a low voltage chandelier of 7 LED pendants that geometrically form an elegant grouping of any coaxial pendant that Stone Lighting offers. Cluster 7 canopy comes in three power supply options: X1, L2.

Dimmable with ELV dimmer.

Steps

• Choose your Cluster 7 Canopy.
• Choose ANY low voltage coaxial pendant, we recommend round glass.

Chandeliers

Stone Lighting chandeliers shine with a unique elegance in many residential and hospitality applications.

Unlimited design possibilities are enabled by our extensive range of multi light canopies. Beautiful large scale faceted crystals and complementary plated finishes contribute to our well executed designs.

30"

Stria Chandelier

Multiple striations of light are created by a central stem and 3 light stems with an E26 socket on each end of each stem, create an interesting and unique lighting creation. Each is adjustable where each stem meets the central stem. Field adjusting of heights and angulation and rotation of each light source is easily accomplished. Beautiful quality aged brushed brass finish.

Arms can be tilted or flattened through simple field adjustment. The widest width achieved with stems is 41", increasing angulation makes the fixture width less when all 3 stems are angled.

Several vintage LED or incandescent lamps can be specified or as shown in main photograph with Stone Lighting's LA10 E26 10W LED lamp. Ships with stems: (3 pcs.) 12", (1 pc.) 6", (1 pc.) 3". For custom stem lengths, consult customer service.

Universal Low Voltage Wall Bracket

This curved arm wall bracket allows a unique mounting solution for any low voltage coaxial cable hung pendant offered by Stone Lighting.

Complete adjustability and look can be achieved simply by setting cable length, allowing fixture to be hung at any desired height.

Simply order your pendant in a J version and order the wall bracket in LED or HAL.

Cable Light

Spaces, lofts, and vaulted ceilings. Our cable virtually disappears once installed. 5.5 and 3.5 cable separation offered on our S-Bella. Stone Lighting is the only one in the industry to offer bronze cable and bronze elements.

Virtually all pendants and heads are adaptable easily with our EZ Jack Cable Adapter. We also offer several other directly attached heads that are beautiful, unique and compatible with most of our glass and metal accessories.

DESIGN

Determine what you are trying to light. Determine your Finish (SN) or our proprietary (BZ) Cable and what Heads you want to choose. Head and Accessories can be found on pages 78-87. Also you may choose compatible Heads and Pendants that attach to cable using our EZ Jack Cable Light Adapter.

SPECIFY CABLE LENGTH

Cable Bare

Rated for 300W at 12V, 600W at 24V load: Voltage drops occur at 30' with 12V, and 60' with 24V. #10 gauge tin-plated copper cable with Kevlar core.

CSCBLBAREBZ, CSCBLBARESN

Cable Insulated

Use insulated cable where required by local codes, also in coastal areas where salty air will accelerate corrosion of bare cables. #10 gauge tin-plated copper cable with Kevlar core, sheathed in clear coating..

CSCBLINSSN

CSCBLBAREBZ

CSCBLBARESN

CSCBLINSSN

SPECIFY HARDWARE, CANOPIES AND TRANSFORMERS

Universal Turnbuckles (2pc. set)

1 set (min) per cable run needed or use 2 sets for tightening cables at both ends. When ceiling mounted, cables drop 2.5" from ceiling. All turnbuckles include mounting hardware for drywall. Special hardware is available for brick, cement or plaster surfaces (specify when ordering).

CSTRNBCKL (BZ,SN)

Power Wall Anchors (2pc. set)

Comes as a pair of wall or ceiling anchors. These anchors can be used for feeding power or a set of dead wall anchors. To feed power, use a remote transformer (sold separately).

CSWALANC (BZ,SN)

Slimline Turnbuckles (2pc. set)

Slimline Turnbuckles tighten the cables and can be used for a cable run of 20 ft or less. They mount to wall or ceiling. When ceiling mounted, the cable is positioned 1 inch below the ceiling. Insulated version is required if mounting to metal (consult factory).

CSSLTRNBKL (BZ,SN)

Adjustable Cable Hanger 12ft

Used to support runs over 20' long so cable does not sag.

Wire grip allows easy adjustability.

CSCBLADJ12 (BZ, SN)

Conductive Connector (2pc.set)

Connectors join cables end to end to continue conductivity.

CSCNS (BZ, SN)

Cable EZ Jack Adapter

Allows any EZ Jack element, Head or Pendant to mount and hang from cable run.

CSEJADP (BZ, SN)

Isolating Connector (2pc.set)

Connectors join cables end to end and isolate power feeds from each other.

Monorail

Stone Lighting Monorail is the most user friendly system within the lighting industry. By utilizing our telescopic rigid hangers and EZ Jack pendant adapters (R), lighting most any space is simple and fast. Use our customer friendly specification guide, listed on pages 408-421, to complete your system.

STEP 1: CHOOSE YOUR RAIL

Every rail is shipped.

It is important to determine what you want to illuminate. Stone Lighting Design Professionals are available to help you create your optimal design. We recommend sketching out your design to help navigate you through this simple system basics guide.

The rail is rated for a maximum of 25 amps: 300 watts at 12 volts or 600 watts at 24 volts. Every rail is shipped with a set of straight conductive connectors for easy joining to another monorail.

STRAIGHT MONORAIL

Satin Nickel (actual size)

Adjustable Hangers

Adjustable Connector

Conductive connectors join sections
of rail together allowing subtle to sharp
horizontal angles.
MSCNADJ (BZ-PN-SN)

Isolating Connector

Use a pair of isolating connectors to separate
one powered run from another.
MSCNISO

Straight Connector

Straight conductive connectors join one
powered run to another.
MSCNS (BZ-PN-SN)

L-Connector

Make a perfect 90° angle.
MSCNL (BZ-PN-SN)

STEP 2: CHOOSE YOUR CONNECTORS

T-Connector

Join three conductive sections of rail.

* We recommend a support within 6" of "T".

MSCNT (BZ-PN-SN)

X-Connector

Join four conductive sections of rail to make
a 4-way intersection.

* We recommend a support within 6" of "X".

MSCNX (BZ-PN-SN)

End Caps

Decorative metal caps to give
finished look to ends of monorail.
4 End caps come in a set.

MSCAPS (BZ-PN-SN)

STEP 3: CHOOSE YOUR MONORAIL SUPPORTS

Adjustable Cable Hanger

Griplock allows for easy one touch shortening
and lengthening of cable in the field. Complete
with drywall anchors. Custom lengths available.
(Consult factory)

MSCBLADJ6 (BZ-PN-SN)-6ft.
MSCBLADJ12 (BZ-PN-SN)-12ft.
MSCBLADJ25 (BZ-PN-SN)-25ft.

STEP 3: CHOOSE YOUR MONORAIL SUPPORTS

Direct Hanger

For the closest to ceiling mounting of rail and
cleanest installation. Must be used in conjunction
with 2" or 4" Remote Direct Feed Canopy.

MSHG1 (BZ-PN-SN)

* Drywall Anchor included

2"

Adjustable Hanger

Adjustable rigid hangers offer unique
telescoping height adjustment.
Self-drilling drywall anchor included with all hangers.
For mounting on concrete ceilings or walls, order
one HRSCWMASO* per hanger.

We recommend hanger every 2-3 ft, depending
on the weight of the elements being hung.

MSHGADJ1 (BZ-PN-SN)-(3" to 4")
MSHGADJ2 (BZ-PN-SN)-(6.25" to 10.75")
MSHGADJ3 (BZ-PN-SN)-(12" to 22")

3" to 4"

6.25" to 10.75"

12" to 22"

Hanger Screw*

HRSCWMASO

STEP 4: CHOOSE YOUR TRANSFORMER + CANOPY

All Monorail lighting systems require a transformer to convert standard (120 -277) voltage to a safe-to-touch 12 or 24 volts. Monorail can be powered with surface mounted transformers or with remote transformers.

SURFACE MOUNTED TRANSFORMERS

All Surface Mounted Transformers are encased in a finished metal housing and mount to any standard ceiling electrical box. Typically, you use a surface transformer when an accessible location above the ceiling or in a utility closet is unavailable for installing a remote transformer.

Transformer and flexible coaxial feeder cleanly and attractively send power to your system. 28" length is standard for our coaxial feeder. It is easily shortened in the field. Consult factory for longer lengths.

Our unique coaxial feeder mimics a solid stem when straight. The braided steel outer jacket and the rail adapter beautifully complement the entire system.

SMT	Description	Model No.	Input	Output	Dimmer Type

LED *Will work with LED or Halogen*

IMPORTANT

- All of our standard transformers are 12/120V.
- Other options like 277V, 24V and 0-10V are available upon request. Consult factory.
- Ships with 28" flexible cable to each transformer.

Shown:
Custom Bubbles
Pendants Installation

REMOTE TRANSFORMERS

All Remote Transformers are encased in metal housings complete with mounting feet and conduit knockouts. Typically, you use a remote transformer when a cleaner installation appearance is desired. A remote transformer must be installed in an accessible remote location, the bulkier ceiling mounted surface transformer is replaced by a power feed canopy with flexible coaxial power feed cable or direct-feed connector.

Remote Transformer	Description	Dimensions	Model No.	Dimmer Type
	Remote Electronic 60W 120V 0.50Amp Output 12VDC 5Amp **LED COMPATIBLE** UL2108 Short circuit and thermal protection * 277V available upon request	8.15"x2"x1.70"	**PWERM60D**	ELV

	Jbox Electronic 60W 120V 0.50Amp Output 12V AC **LED COMPATIBLE** UL2108 Short circuit and thermal protection * 277V available upon request	2.2"x1.3"x0.82"	**PWE60NL**	ELV

All Remote Transformers must be accompanied by a Remote Canopy. The Remote Canopy covers the ceiling/wall electrical box and is equipped with a 28" flexible coaxial power feeder.

How to calculate your wattage needs

2.75" and 4" remote canopies are available for ceiling and wall remote transformer applications. To find which is right for your system, add up the total wattage of the pendants or heads you'll be using (the number of pendants or heads x the total lamp wattage per fixture = total wattage). A combination of wattages may be chosen as long as the maximum wattage allowed by the transformer is not exceeded. For example (3) 50 watt, (4) 35 watt or (7) 20 watt elements can be specified per 150 watt transformer. (6) 50 watt, (8) 35 watt or (15) 20 watt elements can be specified per 300 watt transformer. Double a 300 watt limit for 600 watts.

Additional Important Transformer Information: Aside from wattage requirements and accessibility, the other important factor to consider when choosing a transformer is "voltage drop." The further a light source (pendant/head) is located from the transformer, the lower its voltage and brightness. Magnetic and DC transformers are better suited to handle longer rail runs and distances from the transformer to the furthest light source.

STEP 4: CHOOSE YOUR TRANSFORMER + CANOPY

When using a remote transformer, a remote canopy is necessary. Power feed canopies are mounted to the ceiling or wall. Location can be anywhere along the rail.

4" Round Canopies mount to a standard 4" electrical J-Box.
2.75" Round Canopies mount to a special 2" electrical J-Box (included).

Remote canopies include 28" standard length of a 10AWG flexible, plated coaxial power feeder and complementing rail adapter. The coaxial feeder is field-cuttable and easily shortened by the installer. A straight line to the rail, giving the appearance of a solid stem, is easily achievable by the installer. Direct-feed canopies include a complementing rail adapter flush with canopy.

SINGLE FEED REMOTE CANOPIES

MSCPRMT1 (BZ-PN-SN)

4" Round canopy with flexible 10 AWG softfeeder

Ships with 28" flexible cable

MSCPDIR1 (BZ-PN-SN)*

4" Round direct canopy,

Must use direct hanger MSHG1

MSCPRMT2 (BZ-PN-SN)

2.75" Round canopy with flexible 10 AWG softfeeder

Ships with 28" flexible cable

MSCPDIR2 (BZ-PN-SN)*

2" Round direct canopy,

Must use direct hanger MSHG1

DUAL FEED REMOTE CANOPIES

MSCPRMTDU1 (BZ-PN-SN)

4" Round canopy with dual 10 AWG softfeeder

Ships with 28" flexible cable

MSCPDIRDU1 (BZ-PN-SN)*

4" Round direct canopy,

Must use direct hanger MSHG1

MSCPRMTDU2 (BZ-PN-SN)

2.75" Round canopy with dual 10 AWG softfeeder

Ships with 28" flexible cable

MSCPDIRDU2 (BZ-PN-SN)*

2" Round direct canopy dual,

Must use direct hanger MSHG1

2" ELECTRICAL BOX

MSJBOXRM2 (BZ-PN-SN)

Electrical box comes standard with each 2.75" remote canopy and MUST be installed

*NOTE

4" and 2" direct canopies

4" and 2" direct feed canopies dual are compatible with direct hanger MSHG1 (BZ-PN-SN)

Wall Monorail

Wall Monorail combines the elegance of monorail closely mounted to any wall giving a creative way of illuminating any wall surface. Mount any picture light or EZ Jack compatible element to rail. Arc, Tele and Snap swivels are particularly popular choices for artwork or wall illumination.

Hand-bendable, field-cuttable wall monorail is rated for 300 watts at 12 volts, 600 watts at 24 volts. A myriad of decorative elements make Stone Lighting's Wall Monorail solution ideal for any wall illumination application.

CHOOSE YOUR RAIL

It is important to determine what you want to illuminate. Stone Lighting Design Professionals are available to help you create your optimal design. We recommend sketching out your design to help navigate you through this simple system basics guide.

Wall Monorail is available in straight sections. Every rail is shipped with a set of straight conductive connectors for easy joining to another monorail. The rail is rated for a maximum of 25 amps: 300 watts at 12 volts or 600 watts at 24 volts.

STRAIGHT MONORAIL
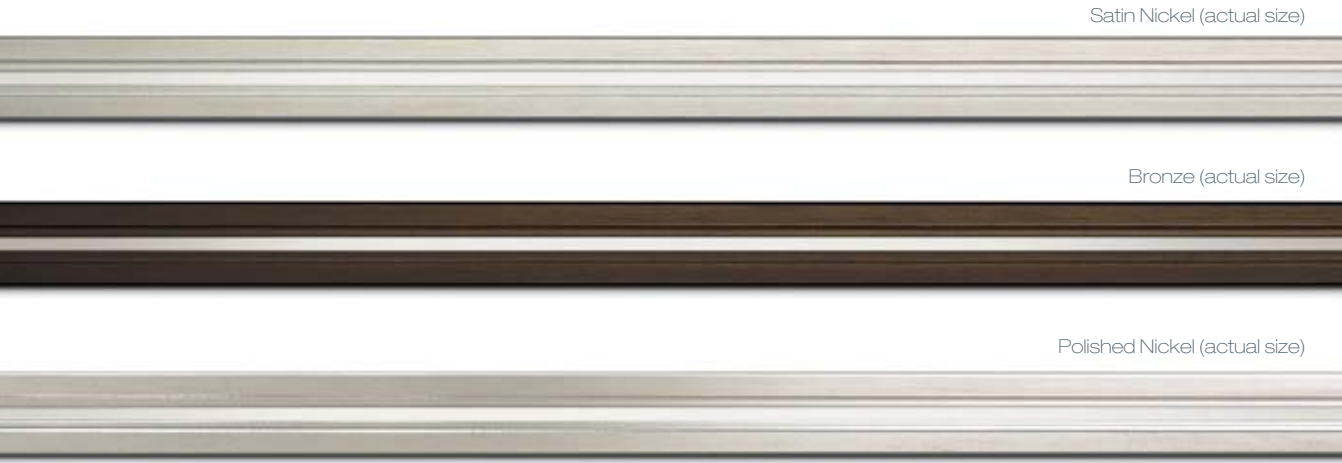

Satin Nickel (actual size)

Bronze (actual size)

Polished Nickel (actual size)

Straight Monorail

Straight monorail is available
in 36", 48" or 96" lengths.

MSRL36 (BZ-PN-SN)-36" Straight
MSRL48 (BZ-PN-SN)-48" Straight
MSRL96 (BZ-PN-SN)-96" Straight

.36" - .91 cm

L 36", 48" or 96"
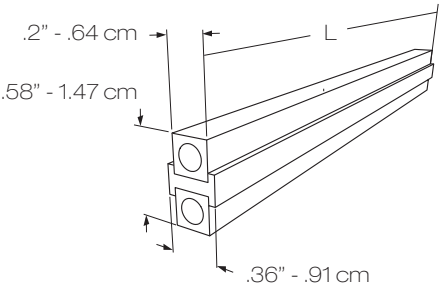

MONORAIL CONNECTORS   Order connectors for joining rails.

Adjustable Connector

Conductive connectors join sections
of rail together allowing subtle to sharp
horizontal angles.
MSCNADJ (BZ-PN-SN)

MONORAIL CONNECTORS

Isolating Connector

Use a pair of isolating connectors to separate one powered run from another.

MSCNISO

Straight Connector

Straight conductive connectors join one powered run to another.

MSCNS (BZ-PN-SN)

End Caps

Decorative metal caps to give finished look to ends of monorail.

4 End caps come in a set.

MSCAPS (BZ-PN-SN)

MONORAIL SUPPORTS

Wall Hanger

Positions rail 1" away from wall. Recommended every three feet along wall mounting.

MSHGWALL (BZ-PN-SN)

REMOTE TRANSFORMERS

All Wall Monorail lighting systems require a transformer to convert standard 120 voltage to a safe-to-touch 12 or 24 volts. Wall Monorail is powered with remote transformers. All remote transformers are encased in black metal housings complete with mounting feet and conduit knockouts. A remote transformer must be installed in an accessible remote location.

Remote Transformer	Description	Dimensions	Model No.	Dimmer Type
	Remote Electronic 60W 120V 0.50Amp *Output 12VDC 5Amp* ***LED COMPATIBLE*** *UL2108* *Short circuit and thermal protection* ** 277V available upon request*	8.15"x2"x1.70"	**PWERM60D**	ELV
	Remote Magnetic 60W 120V/240V/277V 0.50Amp *Dual Output 12VAC and 12VDC 5Amp* ***LED COMPATIBLE*** *UL2108* *Short circuit and thermal protection*	10"x3.11"x2.95"	**PWMRM60**	LVM
	Remote Electronic 150W 120V 1.25Amp *Output 12VDC 12.5Amp* *UL2108* *Short circuit and thermal protection*	8.15"x2"x1.70"	**PWERM150D**	ELV

All Remote Transformers must be accompanied by a Remote Canopy. The Remote Canopy covers the wall electrical box and is equipped with an integral power feed.

How to calculate your wattage needs

4" remote canopies are available for wall remote transformer applications. To find which is right for your system, add up the total wattage of the heads you'll be using (the number of heads x the total lamp wattage per fixture = total wattage). A combination of wattages may be chosen as long as the maximum wattage allowed by the transformer is not exceeded. For example (3) 50 watt, (4) 35 watt or (7) 20 watt elements can be specified per 150 watt transformer. (6) 50 watt, (8) 35 watt or (15) 20 watt elements can be specified per 300 watt transformer. Double a 300 watt limit for 600 watts.

Additional Important Transformer Information: Aside from wattage requirements and accessibility, the other important factor to consider when choosing a transformer is "voltage drop." The further a light source is located from the transformer, the lower its voltage and brightness. Certain transformers are better suited to handle longer rail runs and distances from the transformer to the furthest light source.

CANOPY OPTIONS

When using a remote transformer, a remote canopy is necessary. Power feed canopies run directly behind a rail run. Location can be anywhere along the rail.

MONORAIL CANOPIES

4" Direct Wall Monorail Canopy

Round single feed mounts to 4" junction box.
