14 Light Modular Canopy

Our newest canopy innovation is modular in concept. Unparalleled in it's versatility, our new 14 light canopy offers the customer the ability to make a multitude of head or pendant placement variations and at the same time cover any unused and unsightly open ports. We have designed a simple half dome that covers up to 10 ports on the canopy. Simply screw on the half dome and decoratively cover a port if you desire. For example, if you want to change your 14 light canopy to a 10 light application simply cover any 4 ports you desire.

LED LED lamps

9"1.5"31"

See an example below of port being covered in which you make a custom zig zag design placement.

Powered by 2 x 150 watt electronic transformers you can go as low as only using 4 of the 14 ports. We also can offer the canopy for LED applications. Finally a solution for your customer that does not necessitate purchasing several different canopies when one will do the job of several!!!!

Cluster 7 Canopy

Cluster 7

Cluster 7 is a low voltage chandelier of 7 LED pendants that geometrically form an elegant grouping of any coaxial pendant that Stone Lighting offers. Dimmable with ELV dimmer.

Cluster 7 canopy comes in three power supply options:

X1 is for 10w halogen lamps and includes an electronic transformer that recesses in a typical J-Box.

X2 is for 20w halogen lamps and includes a remote 150w electronic transformer.

L2 is for LED lamps and includes a no load LED driver that recesses in a typical J-box.

STEPS

- Choose your Cluster 7 Canopy.
- Choose ANY low voltage coaxial pendant, we recommend round glass.
