

SAVE THESE INSTRUCTIONS

CAUTION: RISK OF FIRE:

Never replace a Xenon (Xelogen) lamp with a regular Halogen lamp. A regular Halogen lamp requires a protective glass shield.

This product is ETL listed and suitable only for indoor dry locations and approved for use at any height above the finished floor.

ASSEMBLE ROD TO FIXTURE

- 1 Align the threaded rod into the hole, insert and tighten.

INSTALL THE LAMP

- 1 Use only your fingers and soft cloth to place the lamp.
- 2 Push the lamp pins completely into the socket holes.

WARNING: RISK OF FIRE

Never replace a Xenon (Xelogen) lamp with a regular Halogen lamp. A regular Halogen lamp requires a protective glass shield.

INSTALL FIXTURE

- 1 Loosen (do not remove) the two M3 set screws on side of the canopy with the 1.5mm allen wrench.
- 2 Remove the backplate.

- 6 Connect the white fixture wire to the neutral power line wire with a wire nut.
- 7 Connect the black fixture wire to the hot power line wire with a wire nut.
- 8 Place all wires and wire nut connections inside the electrical box.

- 3 Line up two backplate holes with the electrical box holes.
- 4 Mount the backplate to the electrical box with the two #8-32 screws provided.
- 5 Connect the green wire to a suitable ground in accordance with local electrical codes.

SAVE THESE INSTRUCTIONS

- 9 Place the fixture canopy onto the backplate. Level the fixture vertically and tighten the two M3 set screws with the 1.5mm allen wrench to secure the fixture in place.
