

Shown:
(2) LED Mirrors
48"H x 120"

Rectangular Illuminated LED Mirror

LED Illuminated Mirror, 3000K Warm White, Hardwire, 110V input, 90 CRI, IP44, 1200 Lumens.

For both aesthetic and functional reasons, the edge of the mirror adopts sandblasting craftsmanship and frameless design. The sandblasted glass allows visual privacy while still allowing penetration of light.

The LED strip light hides behind the glass and still illuminate the room, giving the mirror a modern and minimalistic look.
